

ECONO SERIES - RECIRCULATOR SYSTEMS

The ES Series is a dampening recirculator system that combines recirculation, filtration and power return. As an option, this economical package can also be equipped with our automatic fountain solution mixing system, as well as a refrigeration package. This system can feed from 10 units of press up to 40 units of press. Only the highest quality components are used that meet CSA, UL and CE standards.

Features:

Model ES20 (20-gal tank) and ES40 (40-gal tank)

- Stainless steel tank
- Two 3/4 HP centrifugal feed pumps
- Quad bag filtration with changeover valve
- Tank over flow and drain valve assembly
- One air operated power return pump
- Float valve assembly

Model ES60 (60-gal tank) and ES80 (80-gal tank)

- Stainless steel tank
- Two 1 HP centrifugal feed pumps
- Quad bag filtration with changeover valve
- Tank over flow and drain valve assembly
- One air operated power return pump
- Float valve assembly

Options:

- Upgrade to 1 HP or 2 HP feed pumps
- Stainless steel plate heat exchanger
- Plumbing package and pan fittings (PVC)
- Automated mixing system
- Back-up return pump
- MA5 Stand Alone Conductivity Monitor
- Refrigeration package (comes with stainless steel coil to eliminate any fountain solution contamination to refrigeration unit).

Technical Data

Voltage:	110-240V / 50-60Hz / 1ph 240-460V / 50-60Hz / 3ph
Dimensions	L=41" W=29" H=65"
Air:	80-100 psi 5scfm
