

COVID 19 TEST? STAY HOME!

Sisters and Brothers:

Recently some of our members have been sent for Covid 19 testing then went into work and continued working for 3, 4, or 5 days until they received a positive test. This is unacceptable! The Union is negotiating Nationally, Regionally, and Locally on a continuous basis to ensure that our members are safe on the work floor.

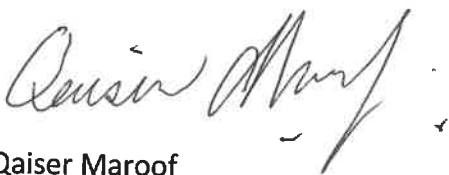

The Local is telling our members that if they go for testing they must **stay home and isolate** until they get their results. We do not want our members coming into work and possibly infecting other workers who may have immune problems or other health issues. Sometimes this is a life and death issue for other members and their families.

If you require a Covid 19 test you are on Quarantine leave for Urban or Special Leave for RSMC's until you get the results and test negative. **There is no excuse for putting anyone else in jeopardy.**

It is hard enough to ensure that management is doing the right thing and notifying us about the results of the tests, and ensuring that the work floor is safe for you. If you have any questions about the testing for Covid 19 and how you should notify the boss you can call the Covid 19 hotline at 416-712-0479.

It is a good time to remember our slogan **An Injury To One Is An Injury To All**. Please respect the rights of all workers and stay safe.

In Solidarity

Qaiser Maroof

Toronto Local President
